

2007-08 Fee Schedule

	Approved 2006-07	Approved 2007-08	Change
Austin Water Utility			
Addition to System Fee			
Water tap fees for all second connections. Increases to the existing installed meter and/or water meters larger than two inches (2") are calculated on the total labor costs transportation and equipment costs materials and supply costs plus indirect and overhead costs for the connection			
Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs transportation and equipment costs materials and supplies costs plus indirect and overhead costs for the connection			
If the facility requiring wastewater service consist of more than fifteen living units (including but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required the charge shall be calculated on a cost basis			
Backflow Prevention Compliance Fee			
Annual fee the Austin Water Utility (AWU) charges to its potable and reclaimed water high hazard customers or fire sprinkler systems that have backflow prevention assemblies on their plumbing systems that are required by the State of Texas or City of Austin regulations to be tested and the results of the tests reported back to the AWU on an annual basis to help the utility ensure that its customers are protected from possible contamination or pollution due to a backflow event. Fee is per backflow assembly	\$25.80	\$26.65	\$0.85
Conservation Based Fees			
Rain Barrels	\$60.00	\$60.00	
City of Austin Customers	\$95.00	\$95.00	
Non-City of Austin Customers			
Irrigation Seminars			
1/2 Day Seminar	\$25.00	\$25.00	
Full Day Seminar	\$50.00	\$50.00	
Cost Estimate Fee For Tap Installation			
Fee per Cost Estimate	\$44.35	\$45.80	\$1.45
Cost estimates for certain tap connections are calculated based on total labor, transportation equipment, materials, supplies and indirect or overhead costs. Preparation of cost estimates requires research of records, a field trip and calculations by Taps Office staff. The fee would be applied toward the purchase of services if purchased within a 90 day period from the date of the estimate			
Descaling Permit (Per Site)			
	\$0.00	\$165.50	New
Fee used to recuperate the costs incurred in regulating temporary descaling activities in the City of Austin's water service area (e.g. analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary descaling activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements			
Dillo Dirt Sales			
Cost per cubic yard	\$11.15	\$11.50	\$0.35
Emergency Repair Cut Off/On Fee			
Fee added to Utility Bills for customer requests for Utility to cut off/on service to water meter for repairs or other miscellaneous reasons	\$11.15	\$11.50	\$0.35

Austin Water Utility			
Engineering Review & Inspection Fee			
Fee for processing of the plat through final plat approval	\$55.50	\$57.30	\$1.80
In every case where a subdivision does not require construction of streets, drainage, water or wastewater facilities or improvements to existing water and wastewater facilities			
Minimum total fee (for processing of the plat through final plat approval)	\$333.00	\$344.00	\$11.00
In every case where a subdivision requires City inspection of any construction of water or wastewater facilities with an estimated construction cost of \$4,915.00 or less			
Fee based on percentage of total cost of construction project			
In every case where a subdivision requires City inspection of the construction of streets, drainage, water or wastewater facilities either singularly or in any combination the Utility shall assess a fee based on the engineer's construction estimate of the improvements as calculated by the Utility in accordance with the following table			
Engineer's Estimate of Total Cost of Construction Project			
(Value of less than)			
\$ 4,915.00	\$333.00	\$344.00	\$11.00

Maximum Charge	\$6,095.00	\$6,296.00	\$201.00

2007-08 Fee Schedule

	Approved 2006-07	Approved 2007-08	Change
Austin Water Utility			
Fire Hydrant Meter Fees			
Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest and will be refunded to the customer upon return of the meter and equipment to the utility after verification that the meter and equipment is in good working condition and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be deducted from the deposit if applicable. The equipment deposit will be refunded in total if the meter and equipment have been returned in good working condition and the utility billing charges have been paid in full. If the utility billing charges have not been paid the deposit will be applied to the unpaid charges first with any remaining amount refunded to the customer.			
Fire Hydrant Initiation Fee	\$22.20	\$22.95	\$0.75
Cost per initiation			
Fire Hydrant Installation Fee	\$33.20	\$34.30	\$1.10
Cost per installation			
Non Compliance Removal Fee	\$55.50	\$57.33	\$1.83
Cost per removal			
Meter and Equipment Deposit (Refundable)	\$100.00	\$100.00	\$0.00
1 Meter and equipment	\$425.00	\$425.00	\$0.00
3 Meter and equipment			
Impact Fee (Capital Recovery Fee)			
Note: The Impact Fee (Capital Recovery Fees) are being reviewed by the Impact Fee Advisory Committee whose recommendations will not be made until August 2007

12 or larger	\$5,629.14		
(2) Northwest Austin MUD #1 Negative Surcharge (Rate Credit)			
Each single family residential customer located within the Northwest Austin Municipal Utility District No. 1 receives a monthly adjustment subtracting \$35.33 from their water and wastewater bills during the 2007 calendar year. If the individual customer's monthly total of the water and wastewater bill is less than that specific amount no carryover shall be allowed. The rate credit starting on January 1, 2008 will be \$35.23 with no carryover allowed for water and wastewater bills less than that specific amount. This adjustment will continue until the current bond indebtedness of the District is retired or September 1, 2026 whichever is earlier

Wastewater Service Rates

For all bills and charges rendered on or after November 1, 2007 these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City the volume service charge for retail customers will be based on their wastewater average.

Wastewater Service Rates for Retail Customers

Retail Monthly Customer Charges	\$6.25	\$7.10	\$0.85
Inside-City Customers	\$6.25	\$7.10	\$0.85
Outside-City Customers			
Volume Unit Charge - All Volumes (Unit Cost Per 1 000 Gallons)

0 - 2 000 Gallons	\$3.65	\$4.10	\$0.45
2 001 over Gallons	\$6.75	\$7.63	\$0.88
Multifamily	\$5.47	\$6.30	\$0.83
Commercial	\$6.05	\$6.93	\$0.88
Golf Courses	\$6.05	\$6.93	\$0.88
Existing Customers			

(A) Retail Customers with Water Service These rates are applicable to all retail customers inside the City and retail customers outside the City who have metered water connections. Wastewater billing is based on the average water usage during the two (2) lowest water consumption months of the designated three (3) month wastewater averaging period or monthly water consumption whichever is lower.

(B) Customers with approved Water and Wastewater Measuring Devices The City will base wastewater billings on the measured sewage volume.

(C) Non Residential Customers with Irrigation Meters For those non-residential customers both inside and outside the City that have a separate City of Austin water meter for irrigation the City will base wastewater billing for domestic usage on actual monthly water consumption.

New Customers

(A) Residential The City will impute a wastewater average of 5 000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water Utility or the Director's designee has the discretion to adjust the 5 000 gallon average when the customer has had an established wastewater average at another City of Austin service address.

(B) Non Residential (Multifamily Commercial Industrial and Wholesale)

(1) Except as provided by subsection (2) if a non residential customer establishes a new account at a service location where an earlier account established wastewater average the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.

(2) If in the judgment of the Director of the Austin Water Utility or the Director's designee the new customer will place a substantially different demand on the wastewater collection and treatment system the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non residential customer has established a wastewater average.

(C) Customers with Wastewater Measuring Devices If a new customer has installed an approved wastewater measuring device the City will base the new customer's wastewater billing on the measured wastewater volume.

(D) Non residential Customers with Irrigation Meters If a new non residential customer has installed a separate City water meter for irrigation the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.

--	-----------------------------	-----------------------------	---------------

Austin Water Utility

Wastewater Service Rates (continued)

The criteria and procedures for an existing commercial customer or a new large volume/industrial customer to qualify as a large volume/industrial customer are as follows

Existing Commercial Customers.

- (A) Criteria An existing commercial customer of the Austin Water Utility must purchase more than 850 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. The Austin Water Utility will annually monitor water consumption to determine if any existing customers have exceeded the 850 million gallon level.
- (B) Procedures On verification of the 850 million gallon purchase or consumption requirement in fiscal year one, the Austin Water Utility will include this customer as a large volume/industrial customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two and will set rates that are to be effective November 1 of fiscal year three. The Austin Water Utility will verify the water consumption in fiscal year two before the rate change on November 1 of fiscal year three to determine if the commercial customer has maintained the 850 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 850 million level the City will change the rates for the commercial customer to the large volume/industrial customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume/industrial rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 850 million gallon level in the second fiscal year the customer will remain at commercial class rates.

The criteria and procedures for an existing industrial customer to continue to qualify as a large volume/industrial customer are as follows

Existing Large Volume/Industrial Customers with Reduced Volume.

- (A) Criteria Existing large volume/industrial customers of the Austin Water Utility must purchase 850 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. The Austin Water Utility will annually monitor water consumption for all existing industrial customers to determine whether the minimum 850 million gallon level has been met.
- (B) Procedures On verification of fiscal year water use below the 850 million gallon consumption requirement the Wholesale Services Division of the Austin Water Utility will notify the customer in writing of the shortfall. If the customer falls below the 850 million gallon level for a second consecutive year a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed.

Existing Large Volume/Industrial Customers with Major Process Changes.

- (A) Criteria An existing large volume/industrial customer of the Austin Water Utility who has major process changes (e.g. sells off parts of the company business changes with lower use projections etc) and the original business plans to purchase less than 850 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus.
- (B) Procedures Upon notification of a major process change that reduces water use projections below the 850 million gallon consumption requirement to maintain large volume/industrial customer status the Wholesale Services Division of the Austin Water Utility will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which

New Large Volume/Industrial Customers.

- (A) Criteria New large volume/industrial customers that have requested connection to the water and wastewater system must submit water use projections to the Austin Water Utility as part of the service extension process. The Austin Water Utility will review the water use projections to verify that the customer would consume more than 850 million gallons within a fiscal year at a single service address or campus. Currently the City does not serve any large volume/industrial customers outside the full purpose City limits.
- (B) Procedures After the customer has provided the Austin Water Utility with water use projections the Austin Water Utility will verify and approve the projections. On approval the City will classify the customer as a large volume/industrial customer and charge the appropriate rate on connection to the City's water and wastewater system. If the Austin Water Utility does not approve the customer's water use projections as being above the 850 million gallon level the City will classify the customer appropriately.

Westlake Hills City of	\$3.90	\$4.23	\$0.33
(A) <u>Application</u> . For all bills and charges rendered on or after November 1, 2007 the City will charge the above rates for wholesale customers.			
These charges are applicable to wholesale wastewater service customers of the City of Austin who are water districts, municipal utility districts or other utilities which have metered water connections. In the absence of measured sewage volume by a means acceptable to the City the volume service charge will be based on the average water usage during the two (2) lowest water consumption months of the designated three (3) month wastewater averaging period or monthly water consumption whichever is lower. For new customers who have not established an average water usage during the December, January and February billing period the City will use the actual water consumption figure or the measured sewage volume to establish the wastewater billing.			
(B) <u>New Customers</u> . The volume rate for any wholesale customer that is not listed above will be based on the arithmetic average of all wholesale volume rates. That rate will remain in effect until the new customer establishes a full 12 month's consumption history. After that time the Austin Water Utility will establish an individual rate and seek approval of that rate by the City Council.
